

WS-5 - Adjustable Wire Stripper & Cutter - Data Sheet

The WS-5 is designed with a precision-ground "V" notch blade for superior stripping results. This tool is spring loaded with a locking latch, a looping and bending hole for solid wire and scored marks on the blade for measuring wire length. An adjustable blade stop easily strips and cuts 10-30 AWG solid and stranded wire. Made of high carbon steel with black oxide coating. Vinyl cushion grips provide excellent comfort.
